Engineering marvels and engineers

Study note 3 of 5 - our own summary, not from TCS

- Gustave Eiffel's company built the Eiffel Tower (1889) and designed the iron framework inside the Statue of Liberty. That is the two monuments on both sides of the Atlantic.
- Isambard Kingdom Brunel: Great Western Railway, SS Great Britain, Clifton Suspension Bridge design.
- M. Visvesvaraya: engineer and statesman, Krishna Raja Sagara dam in Mysore. Engineers' Day in India is on 15 September, his birthday.
- Romans built aqueducts, bridges and arches at large scale. The Pont du Gard in France is a famous aqueduct.
- In an arch, the keystone is the central wedge-shaped stone at the top that locks the arch in place.
- Hooke's law: stress is proportional to strain inside the elastic limit. Steel is iron with a little carbon.
- Golden Gate Bridge opened 1937. Panama Canal opened 1914. Burj Khalifa (Dubai) opened 2010.
